

Missed Medicine Dose Guidance

Source basis: MedlinePlus Medicines; general medication-safety principles

Source URL: <https://medlineplus.gov/medicines.html>

Created: 30 July 2026

If a dose is missed

- Check the prescription label, medicine leaflet, or the instructions given by a clinician or pharmacist.
- Do not double a dose unless a clinician or pharmacist specifically told you to do so.
- Contact a pharmacist if you are uncertain, if more than one dose was missed, or if the medicine is high-risk.

Schedule support

- A reminder schedule can support adherence, but the original prescription remains the source of truth.

This fact sheet provides general health information only. It is not a diagnosis, prescription, or substitute for advice from a licensed clinician or pharmacist. For an emergency, seek urgent local medical help. In India, call 112.
