Created: 30 July 2026

Medicine organisation

- Keep an updated medicine list and review it with a clinician or pharmacist. Include prescribed, over-the-counter, and herbal products.
- Use labelled containers or a pharmacist-approved organiser when appropriate.

Extra caution

- Older adults may have more than one health condition or medicine. Do not combine, stop, or change medicines without professional guidance.
- Seek help after falls, sudden confusion, fainting, severe weakness, or suspected adverse medicine reactions.

This fact sheet provides general health information only. It is not a diagnosis, prescription, or substitute for advice from a licensed clinician or pharmacist. For an emergency, seek urgent local medical help. In India, call 112.
